# KALYPSO 60

Printer kiosk series 58/60 mm
The proven choice for a reliable compact kiosk solution

Auto cutter   **58/60 mm**

COMPACT AND RELIABLE KIOSK PRINTER

With years of printing technology experience, AXIOHM-TXCOM presents the KALYPSO Kiosk Series based on the proven CM/RM Premium Series including a state of the art controller board thus providing the smallest all- in-one printing solution on the market.

The KALYPSO Kiosk is designed to provide outstanding features: ultra-silent printing, **high quality thermal head** (more than 100 km of tickets), **top printing speed** up to 250 mm/s, **long lite auto-cutter** (1,5 Million cuts) with both full and partial cuts, optimized printing quality and a jam free paper output system. The printer can be powered in both 12 and 24V. lt comes standard with both a USB2.0 and RS232 interface connection.

COMPACT & EASY TO INTEGRATE

The KALYPSO will satisfy the most demanding requirements.
Kiosk designers are looking for OEM products that will fit their demands in terms of reduced dimensions and a practical shape. The KALYPSO Kiosk Series has the crucial advantage of being extremely compact while providing maximum flexibility in the integration process with an adjustable paper roll arm and different paper loading positions.
SUITABLE FOR HARSH ENVIRONMENTS

With the strong democratization of contactless payment, durable, fast and easy-to-integrate printers are needed to print receipt tickets. With a robust and reliable design the KALYPSO Kiosk Series is particularly adapted to kiosk and vending machine application (indoor & outdoor).
